

We Will Die On Our Feet

Emerald Sun

False kings kept the power
Oppressing us all
In this final hour
We bring their downfall

On our knees
We won't stay
Your dominion is
Beginning to decay

We will die on our feet
We are stronger than ever
We won't live on our knees
We will never surrender
We will die on our feet

Blaze of determination
Is in our eyes
This is where your empire dies

Prepared the tombs
For masters to die as slaves
The holes you digged
Became your graves

On our knees
We won't stay
Your dominion is
Beginning to decay

We will die on our feet
We are stronger than ever
We won't live on our knees
We will never surrender
We will die on our feet

On our knees
We won't stay
Your dominion is
Beginning to decay

We will die on our feet
We are stronger than ever
We won't live on our knees
We will never surrender
We will die on our feet
