

World on Fire

Emerald Sun

All ancient lights we had
In times faded to grey
Harvest the decay

The universal wisdom
Got lost along with freedom
Looking for a sign
Staring at the mess we left behind

Roving in shadows
Of older heroes
To write the final rhyme

World on fire - all prayers had been spoken
Burning desire - as smoke covers my eyes
World on fire - the giant is awoken
Falling empire - new kingdom will arise

Wordless the whispers
Of the laws that bind us all
Laughing as we fall

We have to end this nightmare
This hellish ride to nowhere
Finally realize
The mission is „create and visualize“

Another daybreak
To make the ground shake
Remember who we are

World on fire - all prayers had been spoken
Burning desire - as smoke covers my eyes
World on fire - the giant is awoken
Falling empire - new kingdom will arise

Earth will turn to sand
To a barren land
Banned in darkness to the end of time
Humanity unite
Illuminate the night
The kindling of this flame will be divine
