

Rescued

Emerson Drive

I was bouncing around
Like a bottle out on the waves
About to go under, about to get swept away
Take it from me, I was lost as a man could be

You came and you saved
A drowning man in an ocean of pain
When you gave me your heart to hold onto
Baby, I'm rescued

It's an empty feeling that fills your soul
When you've got nobody, you're left out in the cold
I still can't believe
How you reached out to me

When you came and you saved
A drowning man in an ocean of pain
When you gave me your heart to hold onto
Baby, I'm rescued

Now even on the darkest night
Oh, I'm never alone
Your love is a guiding light
Leading me home

You gave me your heart to hold onto
And I'm holding onto you
Baby, I'm rescued, baby, I'm rescued
I'm holding on to you
