

With You

Emerson Drive

Just one chance
To love you again and hold nothing back
Just one time
To say all the words I've kept inside
Oh, to see you smiling while we're dancing
Look into your eyes

I'd give anything anything to kiss your face
And I'd trade all my forever for one more day with you
With you

Change rolls in
Like clouds overhead where the sun had been
The reasons why
Could never be as simple as black and white
Oh but every moment took for granted
Never leaves my mind

And I'd give anything anything to kiss your face
And I'd trade all my forever for one more day with you
Living, breathing, laughing
Feeling you here by my side

I'd give anything anything to kiss your face
And I'd trade all my forever for one more day
Yeah for one more day
With you
With you
