

# When She Loves You

Emerson Hart

She's a wild one  
But she has her reasons  
She can take you in  
Or just leave you freezing  
She'll drag you deeper than you ever thought you could go  
You're helpless without her, but somehow inside you know

When she loves you  
You'll do anything that she wants you to do  
And when she comes to you  
You can't deny when she looks in your eyes  
She's the one thing you don't understand  
But you can't live without  
When she loves you  
When she loves you

Have you ever laid in the arms of your lover?  
Have you ever prayed the sun wouldn't come up?  
'Cause you know it would be just another morning  
When she goes  
And all you really know... is...

When she loves you  
You'll do anything that she wants you to do  
When she comes to you  
You can't deny when she looks in your eyes  
She's the one thing you don't understand  
But you can't live without  
When she loves you  
When she loves you  
When she loves you  
When she loves you

oh, oh

When she loves you oo-oo

When she loves you  
When she loves you
