

# Eat You Alive

Emigrate

I've got a feeling got to  
Take this damn world apart  
Burn through every single night

God-speeding bullet got to  
Become a brand new star  
Screaming  
Head straight for the light

Eat you alive!  
Ripped right from the hands of Heaven  
Better keep on running  
Eat you alive!  
I'll eat you alive!

Go numb in dumb devotion  
And though I always knew  
Lonely girls they don't survive

I'll keep my head exploding  
I'll keep on loving you  
Feed me  
I'm your Parasite!

Eat you alive!  
Ripped right from the hands of Heaven  
Better keep on running  
I'll you alive!  
Eat you alive!

Ahhh,  
Get ready...  
There was a time  
I was up in it and I was all ready to go  
Was feeling divine 'till I was bitten  
Get on the ride for the new show  
Was taking me high, taking me low  
But I'll take it over  
And so I'm digging a ditch  
Where I can put it  
Getting it deeper than hell in a hole

There was a time  
I was all ready to go  
It was divine  
Gotta get on with the show  
Don't ever say die  
Get set ready go  
Listen to what I bestow  
There ain't a city  
Standing me sitting  
Getting me going  
The stronger my hold

Eat you alive!  
Ripped right from the hands of Heaven  
Leaving goodbyes

To find their way, 'cause no one's standing  
Always keep you're running  
Eat you Alive !  
I'll eat you alive!
