

Get Down

Emigrate

I'm set for detonation
One touch you're blown away
Why suffer from starvation
I'll make you have to stay

All along
All along you want it too
Don't you baby
Take it all
Take it all and take it down

I taste your salivation
My baby bird of prey
I'll give you aviation
Inject my DNA

All along
All along you want it too
Don't you baby
Take it all
Take it all and take it down

Get down
Get going
Get down
Get going

All along
All along you want it too
Don't you baby
Take it all
Take it all and take it down

Get me going
Get down
Get me going
Get down
And get me going
So get down
And get me going
