

# Infinity

Emily Ann Roberts

I wanna see Paris with you in the springtime  
Buy an old RV and drive it out to L.A  
Act stupid, and crazy  
Be gypsies, have babies  
And remember it all when we're old and grey

Oh infinity won't be enough for me  
I need a guarantee I got you for eternity  
And when this life is done  
The stars go on and on and on  
So darling why can't we just have infinity?

Logic and science say time's just a number  
I don't know if it's true, tell me how does it fly?  
I wanna stop the world from spinning  
And make the ending the beginning  
So hold on to me so tight that we  
Never have to say goodbye

Oh infinity won't be enough for me  
I need a guarantee I got you for eternity  
And when this life is done  
The stars go on and on and on  
So darling why can't we just have infinity?

Ooohh  
Ooohh

Infinity won't be enough for me  
I need a guarantee I got you for eternity  
And when this life is done  
The stars go on and on and on  
So darling why can't we  
Baby promise me  
Oh infinity won't be enough for me  
I need a guarantee I got you for eternity  
And when this life is done  
The stars go on and on and on  
So darling why can't we just have infinity?  
Darling why can't we just have infinity?
