

Close Enough To Kill

Emily Browning

If I let you in deep inside
I don't know if I can hang on
To what I use to be I let it die
Coil around me it's all yours
This is what you came for but you took so much more much more t
han I can give
This is what you came for now it takes much more much more for
me to live
Close enough to fall and die close enough to thrill me close en
ough to crawl
deep inside keep me close enough to kill
There's a emptiness
There's a hole inside
You treat my body like your own
Marks on my chest keep you on my mind
It's a sin you will drive into my bones
This is what you came for but you took so much more much more t
han I could
give
Close enough to fall and die close enough to thrill me close en
ough to crawl
deep inside keep me close enough to kill
You came into my world and I let you take it all
Down on the ground where you taught me how to crawl
Hold me still hold me still
Takes so much to fill
hold me still now keep me close enough to kill
This is what you came for boy you took so much more much more t
hen I can give
This is what you came for now it takes so much more much more f
or me to live
Close enough to fall and die close enough to thrill me close en
ough to crawl
deep inside keep me close enough to kill
This is what you came for
This is what you came for
This is what you came for
This is what you came for
