

# Urban Migration

Emily Browning

You're my everything  
You're my angel  
You're the vision that I take with me every step  
Been searching for your vibration  
This world is not so big if you make him mad

If I lose you, I will find you  
I live inside your dreams and I promise that  
I will keep you, I will treasure you  
And the devil's in my head, I'll combat

We'll find our way home  
We'll find our way home  
We'll find our way home  
We'll find our way home

Urban migration we are following  
There is a place that we will always be searching

If I lose you, I will find you  
I live inside your dreams and I promise you

We'll find our way home  
We'll find our way home  
We'll find our way home  
We'll find our way home

(Fuck the system, fuck the system)  
We'll keep on searching  
We'll keep on searching  
We'll keep on searching  
We'll keep on, we'll keep on  
We'll keep on searching

We'll find our way home  
We'll find our way home  
We'll find our way home  
We'll find our way home
