Ever After

Emily King

They say happy
Happy ever after
Is only for fairy tales
I believe in
I believe in our love
Forever and ever after

In the heart of the city
Someone stops just to say
"Keep a step away from sadness
Cause the good times might not stay"
Just hold my hand through the hard times
And we'll get through together

They say happy
Happy ever after
Is only for fairy tales
But I believe in
I believe in our love
Forever and ever after

Different day, same old story
People tell to you run away
Cause your heart will fall to pieces
And you'll never be the same
Just hold my hand through the hard times
And we'll get through together

They say happy
Happy ever after
Is only for fairy tales
But I believe in
I believe in our love
Forever and ever after
