

False Start

Emily King

I get lost and when I do I run on back to you
Tell myself another truth then fall back what's the use
But leaves don't ever know which way they'll fall
And I've been sitting waiting for the call

I get lost and when I do I run on back to you
Play myself another tune then fall back what's the use
But endings never tell you where to start
Or just how many times they fall apart
And I've been sitting wondering where you are

It's a false start almost had my chance
New heart started making plans
Couldn't take the pain
Had to walk away
Back the way I came
False start couldn't let it go
New heart was the last to know
Couldn't take the pain
Had to walk away
Back the way I came

And endings never tell you where to start
Or just how many times they fall apart
And I've been sitting wondering where you are

It's a false start almost had my chance
New heart started making plans
Couldn't take the pain
Had to walk away
Back the way I came
False start couldn't let it go
New heart was the last to know
Couldn't take the pain
Had to walk away
Back the way I came
