

## Focus

Emily King

It's a distraction  
I got the telephone ringing  
Every moment that I get with you  
Interaction  
Caught me feeling kinda shady  
But I got so many things to do  
I didn't notice  
Last week when you cut your hair  
You got an attitude  
You think I'm hopeless  
Gonna try, gonna try again to pay attention to you

I put my focus, I put my focus on you  
(Focus on you)  
I put my focus, I put my focus on you  
(Focus on you)

Conversation  
You been looking for a job  
But I didn't even know you quit  
Hesitation  
You took a second, then you got real mad  
Said I'm full of shit  
I didn't notice  
Last week when you cut your hair  
You got an attitude  
You think I'm hopeless  
Gonna try, gonna try again to pay attention to you

I put my focus, I put my focus on you  
(Focus on you)  
I put my focus, I put my focus on you  
(Focus on you)

I put my focus, I put my focus on you  
(Focus on you)  
I put my focus, I put my focus on you  
(Focus on you)

Honey, I'm sorry you're the only one that I see  
I'm keeping my eyes on...  
Turn on the TV, baby, let's see a movie  
I'm keeping my eyes on...

Ohh, I didn't mean it, no  
Sometimes I get distracted  
I don't mean to be absent  
Baby, I'm sorry now  
I didn't mean it  
Stay right there, I'm coming home  
I'm keeping my eyes on you
