

# The Switch

Emily King

Friends they adore you  
It's never boring, whenever you're around  
Great conversation, entertaining  
You never let them down

But you're always tired when I get you alone  
You run out of your charms by the time we get home  
And I ain't got time  
(I ain't got time for this, turn it off)  
Ain't got time for this, so then turn it off  
(I ain't got time for this, turn it off)  
Just turn on the switch  
(turn it on)

Out to dinner, you're a winner  
You make the waitress laugh  
She brings you a coffee, says "It's on me"

Then I'm left with the tab  
And when we are together you just give it all up  
You run out of your charms when you know it's just us

And I ain't got time  
(ain't got time for this, turn it off)  
Ain't got time for this, so then turn it off  
(ain't got time for this, turn it off)  
Just turn on the switch  
[x2]

If want it, if i need it  
If I'm hungry, darling, then feed it  
(turn it on)  
Maybe someday, you'll believe me  
You won't take me for granted when I'm leaving  
[x2]
