

Over Anticipate

Emily Kinney

Could you fall in love with me?
OhoOh
Love is such a mind blowing mystery
I know you're very busy
And the terming's not quite right
But I would take a bus on a late Sunday night
To see you, too see you
Could you be my boyfriend?
OhoOh
Boys are such a big book that I've barely read
I know that you're much older
And you've had many lovers
But there's no place I'd rather be
Than underneath the covers
Next to you, next to you
And I'm telling myself to be patient
And I'm telling myself to wait
'Cause when it comes to your love
I over anticipate
And I know that I've done this before
And I know that I can't predict fate
But when it comes to your love
I over anticipate
So I'm making big plans to see you
'Cause I think that we could be great
Yes, when it comes to your love
I over anticipate
Could you fall in love with me?
OhoOh
Will I solve this mystery?
I'm bracing for a letdown
'Cause I know you like your space
But my head is full of love songs
That I just can't erase
About you, about you, about you
