

Goodbye Felix

Emily's Army

Standing in the shadows
He wants to find some love
He's got no friendship
None at the above
He never sees himself
'Cause he only sees his shadow
He had no place to call his home

'Cause he walks to find a reason
For the undercover set backs
Fighting for the losers
And the open hearted street cracks
Man I love you Felix, yes I do

He hides on street corners
His wrath scales the bricks
These dark strangers watch with their back to the hate
The good guys are looted
A girl is crying
Search for syringes
The whole world is dying
It's the end of our frustration
And time for the new

Well he walks to find a reason
For the undercover set backs
Fighting for the losers
And the open hearted street cracks
Man I love you Felix, yes I do

Standing for the DIY
at the bus stop saying goodbye
Even when you are far away
Oh Gus we want you back
It was a story of a guy that never left
And now he wanted to come home

'Cause he walks to find a reason
For the undercover set backs
Fighting for the losers
And the open hearted street cracks
Man I love you Felix, yes
Man I love you Felix
Man I love you Felix, yes I do
