

If Our Music Plays Again

Emily's Army

She's so pretty
But she's like the clouds.
Cuz she'll decorate your mind,
But she ain't always around.

I feel that I've been stuck,
Down on the ground.
While she floats around the world,
Like a merry go round.

I wonder what will happen down the road.
Ten years go by and change will start to show.
And I'll write my soul away to you if our music plays again.
I'll wake up every day for you if our music plays again.

Picking up some rain, every time she stops.
Then she dumps it on me, and my heart goes numb.
To make matters worse, when I try to forget.
She shows up with the clouds and my head can't escape.

I wonder what will happen down the road.
Ten years go by and change will start to show.
And I'll write my soul away to you if our music plays again.
I'll wake up every day for you if our music plays again.

She's so pretty, but she's like the sky
Cuz she determines whether or not
My day is alright.

I wonder what will happen down the road.
Ten years go by and change will start to show it, and you know
it.
And I'll write my soul away to you if our music plays again.
I'll wake up every day for you if our music plays again.
