

I'm Sorry

Eminem

And for whatever it's worth, I'm the last man on Earth
Who'll ever love you the way I love you?
And we both done our dirt, I don't want you to hurt
Don't think I don't love you, I still do-oooh

But, you say you love me and then the wind blows and now you don't know
You changed your mind for no reason
One day you'll want me, but It'll be too late 'cause I'll be long gone
And I won't be here when that breeze comes
I don't really want to end this way, but
Isn't really much else to say, but I'm sorry

Never once did you say how lucky you were to have me
Never once did you say that I ever made you happy
Only how miserable you were
God, why do I feel so invisible to her?
She don't even see me, I feel inferior
Her beauty is exterior, mine's interior, yet here we are
Toxic for each other and still, we stay together
Boxin' one another until
One of us gives, It's no way to live
One day I'ma blow away like the wind
Why do I stay in the state that I'm in? I'm a nervous wreck, I don't deserve
this
No respect, I get these urges to hurt myself on purpose
I can't take it, I lay awake at night, shakin'
I can't fake it, It's pure hatred I feel
I wanna break shit, my self esteem's so low, I ain't shit
I've ate shit for so long, I can't even taste it
And face it, ain't shit changin', so, so-long
I'm standin' at the door with my coat on
You scream, "No, wait, hold on
Don't leave, I don't wanna be lonely, no, oh, God"
Nah, baby, I'm gone, find another sucker to dote on
You, hand and foot, I'm 'bout to float on
One minute you want me and the next minute you don't, I'm
Breakin' up for the last time, I'm out the door (I'm, I'm)

You say you love me and then the wind blows and now you don't know
You changed your mind for no reason
One day you'll want me, but It'll be too late 'cause I'll be long gone
And I won't be here when that breeze comes
I don't really want to end this way, but
Isn't really much else to say, but I'm sorry

I feel cold enough to cry, icicles, I guess this is goodbye
Dry your sniffles, yeah, a tear trickles down your face
Well, here's tissues, I'm not tryna be vicious
Or vindictive, I ain't tryna inflict any more pain
I've been sick to my stomach with this
I didn't want it to, but I knew it was comin' to this
Sooner or later, better sooner than later, better late than never
I know you think it's gonna rain forever
But it will get better, it does, eventually, It's just
It can't go back to the way it was, 'cause the way it was
It just wasn't cuttin' it, maybe 'cause
You ever to stop to think, dead in the middle of all this craziness

It was two good people who just turned evil
Together, the combination's just lethal, It's us
Nah, maybe not, 'cause I wouldn't treat an enemy like you treat me
Maybe that's why this is so easy?
Almost too easy, I say the truth 'cause it frees me, squeeze me, baby
One last time before I leave because I know
I'm never gonna hold you again
Who would've knew we'd come to such a tumultuous end?
And something like this, I hope we never go through again
But there will be no hatred to blow through my pen
'Cause one thing I won't do is insult you again
This is only a note, it's like an ode to an old friend, I'm blowin' in the wind

And for whatever it's worth, I'm the last man on Earth
Who'll ever love you the way I love you?
And we both done our dirt, I don't want you to hurt
Don't think I don't love you, I still do-ooh

But, you say you love me and then the wind blows and now you don't know
You changed your mind for no reason
One day you'll want me, but It'll be too late 'cause I'll be long gone
And I won't be here when that breeze comes
I don't really want to end this way, but
Isn't really much else to say, but I'm sorry

I'm sorry, I don't really wanna hurt you
All I can say is I'm sorry, you know that I'm sorry
I'm sorry, I don't really wanna hurt you
All I can say is I'm sorry
