

It's All Behind Us Now

Emitt Rhodes

Now you're all upset
Let's forgive and forget
What's it matter anyhow?
It was long ago and we both know
It's all behind us now
It's all behind us now

Let's forget those things we said
Say the things we wish we had
Let's forget those things we did
Do things right this time instead
It's all behind us now

Why, you call me names so I call your name
And you call me names some more
Was it scrambled egg? My memory's vague
Could have been hard-boiled, I'm not sure
It's all behind us now

Let's forget those things we did
Do things right this time instead
Let's forget those things we said
Say the things we wish we had

It's a nagging pain, like a ball and chain
That keeps us both in tears
It's a pointless game, it's to both our shame
We would bother count the years
Sorry about that

Let's forget those things we said
Say the things we wish we had
Let's forget those things we did
Do things right this time instead
It's all behind us now
It's all behind us
