

Cut Loose

Emma Bale

This should be over, we're overdue
You crossed the line but I keep coming back for you
I'm thriving emotions, it's not what I do
So I played it cool to lie that I've been thinking about you
You make me wanna

Move baby, but it's been a while
Yeah, it's been a while
And if I give into you baby
Don't you let me down
Don't you let me down

'Cause I want you, I want you
More than I want to
So baby don't cut me loose
'Cause I want you, I want you
More than I want to
So baby don't cut me loose
Don't cut me loose

Don't cut me loose, loose
Don't cut me loose
Don't cut me loose

Trying to hold up my proposure
It's something I do too well
Even though I told myself I shouldn't
Thought you'd come for closure
But I'm stuck under your spell, holding on so well
But I never felt this for someone else, yeah

Move baby, but it's been a while
Yeah, it's been a while
And if I give into you baby
Don't you let me down
Don't you let me down

'Cause I want you, I want you
More than I want to
So baby don't cut me loose
'Cause I want you, I want you
More than I want to
So baby don't cut me loose
Don't cut me loose

Don't cut me loose, loose
Don't cut me loose
Don't cut me loose
Don't cut me loose, loose
Don't cut me loose
Don't cut me loose

Oh, you know I've said I don't want you around me
So why don't you stick around me?
Promise you won't hurt me, yeah
Baby I want to be by your side and your body reminds me
That I want you around me

That I want you around me

'Cause I want you, I want you
More than I want to
So baby don't cut me loose
'Cause I want you, I want you
More than I want to
So baby don't cut me loose
Don't cut me loose

Don't cut me loose, loose
Don't cut me loose
Don't cut me loose
Don't cut me loose, loose
Don't cut me loose
Don't cut me loose
