

Divide

Emma Bale

Late at night just tryna get a hold of you
The moonlight is shining on the painful truth
And I start the next fight
Tongues are tied
I don't know if I could say I'm over you

I know that
You'll hold on to me in the long run
But this mess is a burden to bare
Tryna make it easy on you
You don't even know how I've been pushing through

I've been chasing our highs
Got me paralyzed
I lost track of time
Our timelines collide
Been chasing our highs

You don't wanna go where I've been every night
I don't wanna divide
I don't wanna divide
I don't wanna divide
I never wanna divide

Can't seem to get rid of this residue
We make up but never really talk shit through
Make love forget about this game for 2
I won't try to change your mind it's clear that we are through

I know it (hurts)
I feel like I'm falling I'm floating (I'm floating)
I'm dreaming I'm losing my focus
Tryna make it easy on you
Time will tell if you and me are overdue

I've been chasing our highs
Got me paralyzed
I lost track of time
Our timelines collide
Been chasing our highs

You don't wanna go where I've been every night
I don't wanna divide
I don't wanna divide
I don't wanna divide
I never wanna divide

Lost in the afterglow I still don't wanna let you go so come and let me give
you some more
Stuck in a vertigo I'm falling down the rabbit hole if only it could take me
back home

I don't wanna divide
I don't wanna divide
I don't wanna divide
I never wanna divide

I know what you want from me
I know what you want me to say
