

# Get Back

Emma Bale

Kiss my lips  
And I'll set fire  
Feel my kiss  
And I'll decide

There ain't a thing that I want  
But to make you mine, can't get you off my mind  
There ain't a thing that you want  
But to claim us now, can't get me off your mind

Get back, baby  
Come on and get lost in me  
You gotta go down, baby  
Let our bodies intertwine  
Get back, baby  
Come on and get lost in me  
I want you to drown, baby  
Soaked inside my denim eyes

Candlelight  
And you shine bright  
You're lingering  
In my bedspread

There ain't a thing that I want  
But to make you mine, can't get you off my mind  
There ain't a thing that you want  
But to claim us now, can't get me off your mind

Get back, baby  
Come on and get lost in me  
You gotta go down, baby  
Let our bodies intertwine  
Get back, baby  
Come on and get lost in me  
I want you to drown, baby  
Soaked inside my denim eyes

Get back, get back, baby  
Come on and get lost in me  
You gotta go down, baby  
Let our bodies intertwine  
Soaked inside my denim eyes

Gotta get down, baby
