

# Greedy

Emma Bale

3 words but I wanna get it right this time  
For the first time I've been feeling electric  
I'm believing  
Ah

4 times that you tried to read my mind  
But I'm on a high keeping me captive all night  
Don't try to force me  
Ah

Don't get too invested  
Ooh, let's see where it gets us  
I want to feel you breathing  
The tension when you leave me  
Ah

No need to suppress it  
Ooh, no need to get desperate  
We'll get there if you let me  
Lead you on

Don't know if I'm ready for you, baby  
But I wanna be with you tonight  
Follow you around till it gets light  
You can't leave me here alone tonight

Maybe I've been acting way to greedy  
But your touch got me alright  
Don't know if I'm ready for you, baby  
But I gotta be with you tonight

5 nights and you wanna get to know me, boy please  
Just keep your arms around me  
Forgetting all our boundaries  
Ah

6 fights and I'm fed up thinking things could change  
So I'm dancing on the ceiling  
I'm done with all your reasons why

Don't get too invested  
Ooh, you know where it gets us  
Just want to feel you breathe in  
The tension when you leave me  
Ah

You need to suppress it  
Ooh, you're just being desperate  
You'll get there if you let me  
Lead you on

Don't know if I'm ready for you, baby  
But I wanna be with you tonight  
Follow you around till it gets light  
You can't leave me here alone tonight

Maybe I've been acting way to greedy

But your touch got me alight  
Don't know if I'm ready for you, baby  
But I gotta be with you tonight

Don't get too invested  
Ooh, you know where it gets us  
Just want to feel you breathe in  
The tension when you leave me  
Ah

Don't get too invested  
Ooh, you know where it gets us  
Just want to feel you breathe in  
The tension when you leave me  
Ah

Don't know if I'm ready for you, baby  
But I wanna be with you tonight  
Follow you around till it gets light  
You can't leave me here alone tonight

Maybe I've been acting way too greedy  
But your touch got me alight  
Don't know if I'm ready for you, baby  
But I gotta be with you tonight...
