

orange tree

Emma Bale

Lying in the sun upon the grass
Summer came eventually
You're making me feel better than I was
Underneath this orange tree
Looking through my eyes, you see the past
But you handle it so gently
Calmness just found place inside my heart
Now we're underneath this orange tree

Barefoot walking through the park of insecurities
But you take my hand and show me only the good in me
And it's killing me
'Cause I'm not used to having it this good
All I wanna hear
Is you're in to be all mine

All I know is I've been trying to show you how
My feelings are growing growing for you now
For once I'm feeling like I'm doing something right
You must be the reason why the sun's alight
'Cause all I know is I
All that we could be
I think you might be mine
I think of you and me
Under the orange tree

Skippping through life and you're the cause
You're bringing out the best in me
And you're making me feel better than I was
Underneath this orange tree
You know of all the dumb things that I've done
But somehow you still believe in me
Love is what you've shown me from the start
Since we're underneath this orange tree

And it's killing me
'Cause I'm not used to having it this good
All I wanna hear
Is you're in to be all mine

All I know is I've been trying to show you how
My feelings are growing growing for you now
For once I'm feeling like I'm doing something right
You must be the reason why the sun's alight

Cause all I know is I
All that we could be
I think you might be mine
I think of you and me
Under the orange tree
Under the orange tree

'Cause all I know is I
All that we could be
I think you might be mine
I think of you and me
Under the orange tree

I've been trying to show you how
My feelings are growing growing for you now
For once I'm feeling like I'm doing something right
You must be the reason why the sun's alight

'Cause all I know is I
All that we could be
I think you might be mine
I think of you and me
Under the orange tree
Under the orange tree
