

## Strange Entity

Emma Bale

So take good care of me  
I follow all you need  
And I'll take good care of you  
But you're heartless, you're heartless  
You turn me into your own  
So tie me back to my bones  
Collect your love and mend my heart  
But you're fearless, you're fearless

But I'll take care of your mind  
I lost you, I miss you, I wanna hold you  
So don't you deny it  
I lost you, I miss you, I wanna hold you  
So come back  
Oh, I miss you, I wanna hold you  
Come back, come back

So take good care of me  
I follow all you need  
And I'll take good care of you  
But you're heartless, you're heartless  
Now rest your head and fear my eyes  
For they won't come inside  
Cry me rivers, spin me round  
But you're harmless, you're harmless

But I'll take care of your mind  
I lost you, I miss you, I wanna hold you  
So don't you deny it  
I lost you, I miss you, I wanna hold you  
Come back  
Oh, I miss you, I wanna hold you  
Come back, come back
