

And if you're listening
Do you remember what it feels like?
Just steady your breathing
Do you remember how it felt?
To lose everything, your memories and dreams

When we're sick of going to bed
Just relax and everything will be easy, it'll be easy
Close your eyes and shut the door
Forget the world and everything will be easy, it'll be easy
Yeah yeah-eh

So if you're ready now
Just take a step into your eventide
You won't need anything
All that you'll need is in your company
And you have everything
All your wants and all your needs

(Yeah-eh)

When we're sick of going to bed
Just relax and everything will be easy, it'll be easy
Close your eyes and shut the door
Forget the world and everything will be easy, it'll be easy
Yeah yeah-eh

So if you're ready now
Just take a step into your eventide
You won't need anything
All that you need is in your company
And we have everything
All your wants and all your needs
Yeah-eh
Yeah-eh
Yeah-eh, yeah, yeah-eh, yay-yeah

When we're sick of going to bed
Just relax and everything will be easy, it'll be easy
Close your eyes and shut the door
Forget the world and everything will be easy, it'll be easy

When we're sick of going to bed
Just relax and everything will be easy, it'll be easy
Just close your eyes and shut the door
Forget the world and everything will be easy, it'll be easy
It'll be easy,
Yeah yeah, eh-yeah
