

Fear The Future

Emma Blackery

They say there's strength in numbers
And I was weak as one
But now that we're together
Look how strong I have become

I used to fight alone
Now I fight for me and you
And the people who upset you
Are now my enemies too (Ooooooh)

And when I start to miss you
I go to sleep and then
I'm another day closer
To seeing you again

And I want you to remember this
When you put yourself down
I cannot fear my future
Now that I have you around (Ohhhhhh)

And I want you to remember this
When you put yourself down
I cannot fear my future
Now that I have you around
And I want you to remember this
When you put yourself down
I cannot fear my future
Now that I have you around (Ohhhhhh)
