

# Forever

Emma Blackery

Blow out the candles  
Let's go to bed  
Drift off to sleep  
I'm still convinced you're a dream

Because we started off on shaky ground  
When you swept the floor from under my feet

We cause trouble  
Wherever we go  
I've never been good  
At doing what I am told

But how could I ever turn away from you?  
With your ocean eyes and a voice that paints me gold

No one's seen or heard a thing  
I know who I'd rather be with  
This is the happiest  
That I've ever been

And you know I  
Change my style like the weather  
But you love every version of me  
And it's crazy how time just unwinds  
When we're together

So hold me tight  
Say no words  
We both know  
It's forever

You give me love  
When I've got nothing  
And you give me shelter  
When I bring down the rain

We've got the wolves at our door  
Trying to tear us apart  
But we shine so bright  
That in our light they fade

We hole up in our home  
When there's nowhere we'd rather go  
This is the happiest  
That I've ever known

And you know I  
Change my style like the weather  
But you love every version of me  
And it's crazy how time just unwinds  
When we're together

So hold me tight  
Say no words  
We've found a love to cross the ages  
So hold me close

Say no more  
We both know  
It's forever

We don't always get along  
I can't admit when I'm wrong  
And we've got tempers like fireworks  
But I'm not myself when I'm alone  
You are the one that I call home  
And when it comes to our song  
We both know the words

And you know I  
Change my style like the weather  
But you love every version of me  
And it's crazy how time just unwinds  
When we're together

So hold me tight  
Say no words  
We both know  
It's forever
