

# Human Behaviour

Emma Blackery

It's sad, but it's true  
We're all pretty strange  
When our friends try to help out  
We push them away

And it's all in our nature  
It's just human behaviour

We don't want 'em to see  
What we're like on our own  
Because when people are hurt  
They like to be left alone

But we're just healing over  
We're getting stronger as we get older

And nobody wants to be perfect  
'Cause people would stop being kind  
We'd settle for being content  
If it wasn't so hard to find

Because we're just healing over  
We're getting stronger as we get older  
And it's all in our nature  
It's just Human Behaviour

And though we all make some bad choices  
It's rare that we ever regret them  
And when those bad choices are people  
It's even harder for us to forget them

But you'll heal over in time  
I promise you will be fine  
It's all part of the ride  
Don't let your life pass you by

'Cause we're just healing over  
We're getting stronger as we get older  
And it's all in our nature  
It's just human behaviour
