

# FALLEN

Emma Hewitt

I was fine but it was long ago  
I always thought I knew which way to turn again  
Forever tried to walk before I crawled  
What did I know? What did I know?

What do we become if we don't feel  
Who's going to save us now  
What you gonna find when the storm clears  
Can we make our own way out

What do we become if we don't feel  
Who's going to save us now  
No one's gonna right all the wrongs here  
Cause we are fallen  
We are fallen

We often shunned the things that we were shown  
Too many bridges burned along the road I guess  
I had to find a way to stem the flow  
What did I know? What did I know?

What do we become if we don't feel  
Who's going to save us now  
What you gonna find when the storm clears  
Can we make our own way out

What do we become if we don't feel  
Who's going to save us now  
No one's gonna right all the wrongs here

What do we become if we don't feel  
Who's going to save us now  
No one's gonna right all the wrongs here  
Cause we are fallen  
We are fallen

We are fallen
