Emma Hewitt

I will stay with you tonight
Keep you safe from all you hide
All we were was just a dream

Here our past is left behind
Now our paths are intertwined
All we were and all we'll be

Now...
I'll keep it all alright
When there's nobody out there
When you fall beyond the waves
I'll bring you air

A thousand lives we've lived till now
All this beauty that surrounds
All we were and all we seek

Now...
I'll keep it all alright
When there's nobody out there
Make sure you find the way
When you feel you're nowhere

I'll keep it all alright
When there's nobody out there
When you fall beyond the waves
I'll bring you air
I'll bring you air
Air

There's nothing they could take from you
When you fall from grace I'm falling too
Don't ever fear I'm here beside you always

I'll keep it all alright
When there's nobody out there
Make sure you find the way
When you feel you're nowhere

I'll keep it all alright
When there's no body out there
When you fall beyond the waves
I'll bring you air
I'll bring you air
