

## Run

Emma Hewitt

And all the way is winding,  
I know I could get lost with you  
But I feel that we're dividing and  
I can see you're falling through...

Now time it won't pass by me  
if I don't let it find me  
Illusion will not blind me,  
I cannot look behind me  
Now all I see reminds me  
to run before I'm lost like you...  
So RUN...

For all we say,  
we're wasted here  
I was awake you were not there  
When all we have has disappeared  
I'll keep a light for you...

I know that time is speeding  
and memory deceives the truth  
Experience is fleeting and  
I can't stay asleep like you...  
So RUN...

For all we say,  
we're wasted here  
I was awake you were not there  
When all we have has disappeared  
I'll keep a light for you...

We only see what we believe in  
I can't stay with all I've seen here  
Only see what we believe...

For all we say, we're wasted here  
I was awake you were not there  
When all we have has disappeared  
I'll keep a light for you...
