

At first I was the dark side of the blade
Stay inside and be still
Maybe they'll think I'm still the same
And nobody will notice
If I break down, break down inside
I break down, break down

Shake me 'till I wake
I know I'm brave
I know I'm braver than this
Break this [?] I've made
I'll illuminate, I'll illuminate
Watch me, I'll illuminate

I am one million colours in one
I am one, one in a million
I am one million colours in one
I am one, one in a million
Watch me I'll illuminate

And have you ever held silence like a knife
To protect yourself from feeling something you know will burn inside
Oh, well I was on fire, on fire all the time
Now I'm just alive, alive

Watch me I'll illuminate
I am one million colours in one
I am one, one in a million
I am one million colours in one
I am one, one in a million
Watch me I'll illuminate

But I'm spinnin' in slow motion
I am aluminous like this
I'm spinnin' in slow motion
I am aluminous like this
I'm spinnin' in slow motion
I am aluminous like this
I'm spinnin' in slow motion
Watch me I'll illuminate

I am one million colours in one
I am one, one in a million
I am one million colours in one
I am one, one in a million
I am one million colours in one
I am one, one in a million
I am one million colours in one
I am one in a million
