

## Easy

Emma Steinbakken

Hold me, hold me like you mean it  
I'm getting tired, will stay a while  
With you but then I'm leaving

And you say I never loved, never cared  
I run away when I get scared  
But I got so caught up in things you couldn't see  
Now you bring out the worst in me  
But I

I wanted easy  
Something that you just couldn't give me  
I want you to need me  
But you don't ever feel the way that I feel  
I thought it was us against the world but it's just you against  
me  
I wanted easy, easy

Honestly, how would you describe us?  
Would you get on your knees  
Telling me you wanted this forever?

'Cause you say I never loved, never cared  
I run away when I get scared  
But I got so caught up in things you couldn't see  
Now you bring out the worst in me  
But I

I wanted easy  
Something that you just couldn't give me  
I want you to need me  
But you don't ever feel the way that I feel  
I thought it was us against the world but it's just you against  
me  
I wanted easy but you made it hard
