Emmelie de Forest

I haven't seen the light of day  
Not since you took your love away  
I get so blue  
Thinking of you  
And wondering who  
You do do do

Logged on to your IG account  
Man all the DM's that I found  
A girl named Eve  
She wants to meet  
Not gonna happen Pete  
Delete, delete, delete

I know I really shouldn't care  
But that you left me isn't fair  
And everybody knew  
I was way too hot for you

I hacked your iCloud last night  
Your password's still Fuckboy4life  
Pictures of me  
Down on my knees  
Not yours to keep  
Delete, delete, delete

I'm doing good, I'm fine  
Guess I just need a little time  
To get you off my mind  
My mind

You say I'm crazy, I need help  
Why don't you go and fuck yourself  
Cause you'd go crazy too  
Lovin' someone like you

I'm really happy that we met  
Now I've got something to regret  
Our last embrace  
Those dreamy days  
Your pretty face  
Erase, erase, erase

And in a week  
You'll be texting me  
Forget it Pete
