

Solar Flare Homicide

Emmure

I see a fire in the sky
Lights go out I'm gonna finish what I started
And now you better pray I don't know where you are
Do you remember just like I always do?
Ive been dying to remind you
There ain't gonna be a jail sentence
No more Fucking Consequence
No there will never be another sentence
Fire in sky
This is freedom
I see fire in the sky
Now you'll suffer
