Falling

Emmy Rossum

What's coming over me I've no control
I hear a voice saying get a hold
Of yourself you seem like
Someone else I don't know
Where have my senses gone, I lost my way
With every touch you intoxicate
Pull me in, stop making
My head spin, I'm losing it
Upside down my feet can't find the ground
My mixed up mind's a blur
I trip on every word

Cause I'm falling, falling fast
Like I always do
Tell me it won't pass
I've everything to lose
Stop me before I go too far
Go on go on keep me falling
Hold my tongue before I say too much
Please don't run I need to know because
I'm gonna let go c'mon catch me
Go on go on keep me falling

You are everywhere inside my head
And I'm all tangled up in your web
So surreal but I like how it feels
In this reverie
Just a look and I'm not thinking straight
I'm addicted I don't wanna wait
I'm letting go
Of everything that I know, I'm losing it
Up and down my spine go shock waves now
Tumbling heels over head
Lost in this maze again

Cause I'm falling, falling fast
Like I always do
Tell me it won't pass
I've everything to lose
Stop me before I go too far
Go on go on keep me falling
Hold my tongue before I say too much
Please don't run I need to know because
I'm gonna let go c'mon catch me
Go on go on keep me falling

Falling (For you)
Falling (Catch me I'm)
Falling (Falling for you)
Cause I'm falling, falling fast
Like I always do
Tell me it won't pass
I've everything to lose
Stop me before I go too far
Go on go on keep me falling
Hold my tongue before I say too much
Please don't run I need to know because

```
I'm gonna let go c'mon catch me
Go on go on keep me falling
```

```
I'm gonna let go c'mon catch me
Go on go on keep me falling
```
