Burn That Candle

Emmylou Harris

Keep that candle burnin' bright, mama I'll be kind of late tonight, mama There's a yellow moon above me, mama Shinin' on the one I love, mama

Burn that candle night and day Burn that candle, honey, light our way Keep that doorway open wide Until we come slowly strollin' side by side

While that candle's shinin' high, mama I'll be with my sugar pie, mama We'll be comin' home you know, mama Lookin' for that candle glowin', mama

Burn that candle night and day Burn that candle, honey, light our way Keep that doorway open wide Until we come slowly strollin' side by side

After we have had the wedding, mama To that candle we'll be headin', mama So before we're runnin', dinin', mama Keep that candle light a-shinin', mama

Burn that candle night and day Burn that candle, honey, light our way Keep that doorway open wide Until we come slowly strollin' side by side

Burn that candle night and day Burn that candle, honey, light our way Keep that doorway open wide Until we come slowly strollin' side by side
