### Emotional Oranges

Clean V in the bullet, man, I'm cuttin' it up  
Light skin like honey but you butter me up  
This right here's like a throwback  
You should know that  
Where I apply pressure, you gon' feel it in your psoas  
You ain't a girl's girl what type of shit is that?  
You can really lick the shadow off my silhouette  
It's not how I move usually  
But tell me all the things you gon' do to me

It's all on me, baby  
That's right, yeah  
It's all on me, waitin'  
Can you be the one?  
I know you came from nothin'  
You are from around the way  
You're always chasin' somethin'  
Out here tryna run that play

Tryna get you to get into me  
You're much more than a friend to me  
You're not tough, you pretend to be  
Oh, I know you feel the chemistry  
New agendas, I fill it  
Surrender my feelings  
I need you, admit it, alright
