

Take Your Place

Emphatic

you're not falling asleep
This is not a dream
I'm as real as your worst fuckin' memory
you can light a flame
but I'm addicted to pain
I know how to win this game.so
when you hear the beats
that's been runnin' the streets
I'm coming for you tonight
and then the ground will shake
and when it starts to break
that's your warning sign,so

hey,you
it's time to feel defeat
but to blow it up
I gonna take your place now
hey,you
it's time to feel defeat
but to blow it up
I gonna take your place now

if you thought I was gone for good
you don't know me
you don't know me
cuz I'm going straight to the top of the world
you can't slow me down
you'll never stop me now
can you hear me
you better fear me
I'm coming for you this time
and now the ground will shake
and when it starts to break
that's your warning sign,so

and I'm all of your nigh of this bizarre sky
and what's you're all of grown for
and I'm all of your nigh of this bizarre sky
and what's you're all of grown for
