This Time

Emphatic

For you i lose control tonight
I guess my will
But you know i tried
To find my lust for my obsession
I guess i never learned my lust
For you
I sink through my own nights
And call my beast just to make it's right
We can't turn back
The hardest time

This time i really want it
This time i couldn't stop it
But you ... mind
It was just this time
I try to ignore it but it ache me alive

For true i spilled by my life
I never wanted to make a try
I know i like but to hide it
She never knew but i can't deny
Now ... i must to live or die
To kill my affection and not confuse my mind
Oh my god i wish i could rewind
Because i wait to ...

can't stop this
I can't stop

This time i really wanted it
This time i couldn't stop it
But it's...
It was just this time
I try to ignore it but it ache me alive
