

What Are You Afraid Of?

Emphatic

What have you done
That no one knows?
Your guilty conscience
Behind closed doors
A distant shadow
A vacant hall
Lose your grip
Can't break your fall

Dreaming your confession
You float all away
Drown in your obsession

What are you afraid of
When you close your eyes?
Drifting through the darkness
Paralyzed
What are you afraid of
That holds you down?
Screaming in the silence
Without a sound
What are you afraid of?
Afraid of

Used to fly
Above the clouds
Now something keeps you
Buried underground

Dreaming your confession
You float all away
Drown in your obsession

What are you afraid of
When you close your eyes?
Drifting through the darkness
Paralyzed
What are you afraid of
That holds you down?
Screaming in the silence
Without a sound
What are you afraid of?
Afraid of

What are you

What are you afraid of
When you close your eyes?
Drifting through the darkness
Paralyzed
What are you afraid of
That holds you down?
Screaming in the silence
Without a sound
What are you afraid of?
Afraid of
