Time's of the essence, yes, check my method  
There is no question, you can keep guessing  
Laid back, cooling, naw, I'm not stressing  
I don't chose them, they choose me, I'm like treasure  
Maybe cause I'm saner than y'all, don't know I measure  
Maybe cause I symbolise grade A pleasure  
Take what you want, no playing hard to get  
Oh you got it like that, well let's see what comes next

Take what you got, let us stick our hands up in the air  
Are you down to work? Are you down to work?  
Tell me if you ready cause I'm willing to take what I want toni  
ght  
Are you down to work? Are you down to work?  
We gon' get it started  
I said we gon' get it started

Put your hands up, face down on the pavement  
Don't you move a muscle, are you hearing what I'm saying?  
You're my hostage, hostage, all up on you  
Make you be my mosh pit, mosh pit, and you love it  
I'mma make you want me, that'll always be my motto  
Don't be acting like you do not want to win the lotto  
Lemme be your grand prize, baby grand prize  
Be the woman to your mankind, yeah this man's mine

Take what you got, let us stick our hands up in the air  
Are you down to work? Are you down to work?  
Tell me if you ready cause I'm willing to take what I want toni  
ght  
Are you down to work? Are you down to work?  
We gon' get it started  
I said we gon' get it started

Let's get started, aw look at that body  
Jump around, get wild, body saying good lord  
Let's get started, aw look at that body  
Jump around, get wild, body saying good lord  
Like a real round special, be the beast that you can  
And this is why you came, tell me are you not entertained?
