

# Get Me Right

Empire Cast

Gettin' right in here, gettin' right in here  
Gettin' right in here, gettin' right in here  
Gettin' right in here, gettin' right in here

Long as the DJ keeps playin', I'm dancing the whole night away-ay  
Cause I got your attention, and I'm keeping your eyes on me, ay  
When the beat keep knocking, drinks get to flowin'  
You're gon' like the way my body goin'  
There ain't one in this place that can do it quite like me, yeah  
Yeah I just came here to party, well since I'm what you like  
We can get this started, I'll keep it sexy all night

Get me right (yeah, yeah)  
Yeah  
Get me right (yeah, yeah)  
(You know I'mma get you right)  
Get me right  
(You know I'mma get you right)  
Get me right  
(You know I'mma get you right)

Got all these drinks  
And all these lights  
So I hope you can get this feelin' all night  
(What you want girl, what you want girl)  
Get me right, we're gettin' right  
Get me right

Shorty, you know I'm gonna get you right  
Got the baddest on my side, when we step out it's a homicide  
Killin' is too easy baby  
Got it on lock, like Weezy baby, yeah  
We keep the situation real locked  
Haters don't make us mad, nah, even if they still try  
We be on somethin' they don't know  
Tell em they ain't with us, we gonna throw them out  
Tip the body in the party when we tipsy  
While you movin' all around like a gypsy  
We be chillin' at the stocks with a rich B  
Ride out gas tank never hit E  
Gonna make em mad at us and you know it  
When you see the way we did it and we blow it  
You can see it in their eyes we got something that they like  
And we came here to get it and you know it's right

I can tell that you really want it  
And I just need somebody to come and...

Get me right  
(You know I'mma get you right)  
Get me right  
(You know I'mma get you right)  
Get me right  
(You know I'mma get you right)

Get me right  
(You know I'mma get you right)

Got all these drinks (yeah, yeah)  
And all these lights (yeah, yeah)  
So I hope you can get this feelin' all night  
(What you want girl, what you want girl)  
Get me right, we're gettin' right  
Get me right

Yeah I'm the one, baby, I'm 'bout to give you life  
Long as you keep me dancin' in your spotlight  
Cause they can't do it like me  
And they know why  
Can't even come close, so even if they tried all night  
You better get right
