

# Got That Work

## Empire Cast

She got me so good right now  
I'm feeling so good right now  
I can give you what you want baby  
I'mma even let you take it all baby

I waited my turn, I put in that work  
I buried these niggas, put them in the dirt  
I run the Empire, the power is mine  
Take over the game, I put that on my mom  
You ain't wasting my time, ain't wasting my time is wasting my money  
Got back on my grind, do this on my own, they know I got work in  
Know I'mma shine, I hear ya hidden agendas, I'm praying this shit'll offend  
ya  
They all got they hands to the ceiling cause I got that work

Got that work, get 'em Claud  
If you want that loud, I can bring the noise  
Get a greedy vision just to see ya boy  
Brand new foreign car, you should see my toy  
Work, got that work, work, got that work  
Work, got that work, work, she like work  
Work, got that work, work, got that work  
Work, got that work, work, she like work

I got this slap from my mother  
I put that on my brothers  
Catch me out with your lady  
I'm in that foreign, no other  
Ain't gotta talk about cash, let it rain, it's covered  
She just wanna drink and fuck, I told her we are not lovers  
For the love of this money, I probably hurt your own family  
Got that work, work, work, I know that he understanding me  
Any rapper you can find, I bet you he is a fan of me  
Claiming he got that crown, I put that in the hands of me  
Cause they call me the greatest, I shit on the haters  
Going way up like elevators  
I'm higher than y'all, flier than y'all, call me sire  
Can you do this? Can you do that? Don't like liars

Got that work, get 'em Claud  
If you want that loud, I can bring the noise  
Get a greedy vision just to see ya boy  
Brand new foreign car, you should see my toy  
Work, got that work, work, got that work  
Work, got that work, work, she like work  
Work, got that work, work, got that work  
Work, got that work, work, she like work

Know I put in work, know I put in work  
Know they go berserk, shawty go berserk  
Know I put in work, know I put in work  
Half bro hating on worth  
I did that  
They hate on  
I got that  
They hate on but she know

Got that work, get 'em Claud  
If you want that loud, I can bring the noise  
Get a greedy vision just to see ya boy  
Brand new foreign car, you should see my toy  
Work, got that work, work, got that work  
Work, got that work, work, she like work  
Work, got that work, work, got that work  
Work, got that work, work, she like work
