

Juice

Empire Cast

Look what you made me do (made me do)
Whip out the sauce it ain't dripping over you (over you)
Pretty eyes on me when I step out of the coupe
Lookin' like I hit the lotto
I could make her lucky too

Girl I got the juice
I got the juice
Girl I got the juice
I got the juice
Girl I got the juice
I got the juice
Girl I got the juice
I got the juice

Yeah I still got it

My sauce still flowing
Drop top to get lowing
Pretty thing in that bed
More than a passenger
I ain't lonely
Hot shot they all on me
Yeah it's my fault they all on me
When a bad boy is this icy
They wanna pop shots at this goaly

Oh she love me (oh she love me)
She like me too (she like me too)
Her mind is thinking everything she let me do (she let me do)
Girl if you want it, I got it
The body rock-solid
And all the girls on me like glue
What it do?

Look what you made me do (made me do)
Whip out the sauce it ain't dripping over you (over you)
Pretty eyes on me when I step out of the coupe
Lookin' like I hit the lotto

Girl I got the juice
I got the juice
Girl I got the juice

Girl I got the juice
I got the juice

Yeah I still got it

I ain't mad
As I leave you in the past
Thinking back, "Just another one I had."
Simple math, if I replace you in a flash
I move any woman that's lucky to have

Know when I step into these places
All the girls want to engage me
I got em stuck in amazement
Like "He is hella amazing."
Girl I know you want it
I got it, the body rock-solid
Nobody hide the look
The look on their faces
They all look though

Look what you made me do (made me do)
Whip out the sauce it ain't dripping over you (over you)
Pretty eyes on me when I step out of the cool
Lookin' like I hit the lotto
I can make her lucky too
