

Miracles

Empire Cast

It's the dynasty
You perform miracles
Miracles

So you wanna rule the world
Walk across the ocean
Miracles
You can do it if you want
'Cause you perform miracles

Girl, my girl
Every moment in miracles
With you around is easy
Never hard like calculus
My strong back
When I felt like anything is possible
We make magic happen and overcome every obstacle

Do you believe in miracles?
Yea
When we're together it's miracles
You should let me show you that
No, you should let me show you that
You perform miracles

So you wanna rule the world
Walk across the ocean
Miracles
You can do it if you want
'Cause you perform miracles

Even if I'm in the gurney
Headed to the hospital
Waiting till my casket drop
Will remain unstoppable
Like Marc Anthony
Headed across the Mediterranean
The sea is epiphany
Cleopatra embrace and taste the kiss

Do you believe in miracles?
Yea
When we're together it's miracles
You should let me show you that
No, you should let me show you that
You perform miracles

So you wanna rule the world
Walk across the ocean
Miracles
You can do it if you want
'Cause you perform miracles

On the mountain top
Where we can't climb
Keep my eyes on the spell
Where I learn to fly

'Cause we're ready for whatever so it's no surprise
Every star that they throw ends up to the sky

Do you believe in miracles?

Yea

When we're together it's miracles

You should let me show you that

No, you should let me show you that

You perform miracles

So you wanna rule the world

Walk across the ocean

You can do it if you want

'Cause you perform miracles

So you wanna rule the world

Walk across the ocean

Miracles

You can do it if you want

'Cause you perform miracles
