Empire Cast

People been talking about it
We won't just stand here in silence
Can't stop the fire from rising, rising
Ooh, ooh

People don't you be afraid
So many innocents slain
This is an era for change, change

Malcolm's probably turning in his grave

Every shade was beautifully made

And powerful
There's so much strength in you and me
Powerful
A breath away from victory
I matter, you matter, we matter all
I matter, you matter, we matter all
Powerful
Powerful

I see a colourful future
Where skin don't define any human
And stars are the only thing shooting, shooting
Ooh, ooh

Mothers who bury their child
How can we sit there and hide?
Change comes when all take a stand now
Stand up
Stand up

Martin's speech still echoes in my brain

Every shade was beautifully made

And powerful
There's so much strength in you and me
Powerful
A breath away from victory
I matter, you matter, we matter all
I matter, you matter, we matter all
Powerful
Powerful

Oh, oh, oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh, oh, oh

Powerful

There's so much strength in you and me
Powerful
A breath away from victory

I matter, you matter, we matter all

I matter, you matter, we matter all
