

Right Here

Empire Cast

Never felt like anyone else, I never did
Barely even felt like myself
But how could I know?
I was so low
And everything just felt like a lie, but I couldn't tell
Anybody else I was lying
Where could I go,
Out on my own?

The more that I kept running away
The further that I got from all the good parts of me
I had to slow down and face myself
This is me

I was so lost, lost, lost
Until I found, found out
That I'm right here
Yeah, I'm right here, oh
Underneath all those scars
I'm someone so beautiful
Yeah, I'm right here
I'm still right here, yeah

Felt like I was holding my breath, uncomfortable
But now I can't be anything less
Than all of me
I'm out on my own

The more that I kept running away, the further that
I got from all the good parts of me
I had to slow down
Start loving myself

I was so lost, lost, lost
Until I found, found out
That I'm right here
I'm standing right here
And underneath all those scars
I'm someone so beautiful, whoa-yeah
And I'm right here

(I'm right here)
Oh, I'm right here
I'm still right here
I'm still right here
