

## Same Song

Empire Cast

They tell me if you really want it that bad  
You gonna get it  
So you know I'll be writing rhymes forever  
But since a younging I'll be on but never  
Never time to shine  
These people hate what they don't know manipulating my grind  
I played the bench applying pressure from the sidelines  
Never gave a damn about a hater trying to take mine  
I was my own boss always took my own law  
Solid as a rock but when I flip I took my own fall  
They asked that, "How you do that baby?"  
I'm whilingon the block like, "Why you do that baby?"  
They wonder how I move like, "How you do that lady?"  
Had the baddest by my side they can move that baby  
Uh, She don't move for nothing always the money  
When they schemeI wasn't gone people thought it was funny(thought it was funny)  
Uh, they say, "You really want it that bad? Just think of all the stuff you n ever had!"

And if you really want it that bad, you gonna get it  
So I probably sing this song forever, but never mind the weather  
Take a ride and get my mind together  
I got a diamond I'mma shine forever  
And if you really want it that bad, you gonna get it  
So I probably sing this song forever  
But never mind the weather  
Take a ride and get my mind together  
I got a diamond I'mma shine forever

Right, I know that she gon' pop that's what they used to say  
But back to the block what the future say  
Back to the spot, with the kitchen in the pot  
Baking soda till it rockwhile you listen and you watch  
Only younging out my gunto ever write a rhyme  
In the booth like everyday, I'm dreaming bout what99  
One time they stole my book, why would you study mine  
I'm sorry hater I won't tell them how I plan to shine  
95 that North side see me in Delaware  
People die and boots fly my people heavy there  
Shook nineve all the way live we born crooks  
What I'm saying  
You ain't walking with God I promise your soul get soaked  
Scrape up chains like here and theres  
Sometimes I had to move that green to grab that pair  
Why these women say, "They don't like me"  
Eh, they wanna fight me  
A hater's watching they women they thinking I'm hitting I'm probably  
If you really want it that bad, you gonna get it  
So I probably sing this song forever  
But since a younging I been on but never  
At the time to shine  
Manipulating my grind  
Told these haters how I do it  
Like how I move it  
They love the focus, they love the way I pursue it  
Had to do my own thing

I'm gonna make my own lair  
Always be a winner because I'm playing at my own, yeah!

And if you really want it that bad, you gonna get it  
So I probably sing this song forever, but never mind the weather  
Take a ride and get my mind together  
I got a diamond I'mma shine forever  
And if you really want it that bad, you gonna get it  
So I probably sing this song forever  
But never mind the weather  
Take a ride and get my mind together  
I got a diamond I'mma shine forever

You can't dim the lights  
And now its time to shine  
And all that's in me  
Together we can go  
You trying to knock me down  
But I already knocked the ground  
And it's my time, and you can't take what's mine

And if you really want it that bad, you gonna get it  
So I probably sing this song forever, but never mind the weather  
Take a ride and get my mind together  
I got a diamond I'mma shine forever  
And if you really want it that bad, you gonna get it  
So I probably sing this song forever  
But never mind the weather  
Take a ride and get my mind together  
I got a diamond I'mma shine forever
